

Environment and Education Centre

THREE VALLEYS WATER

The Education Team at the Centre aim to support teachers in providing stimulating and exciting “hands on” experiences which will enrich curriculum work in school.

In addition to working with children who visit our Environment and Education Centre on a 33 acre site in Bushey, we also go out into schools. Our outreach programme has steadily expanded over recent years and is now a very popular option.

Activities

We cover many areas of study, plus offer free INSET courses for school staff. The list below is an outline guide only. For more information or a teachers` pack please contact us on one of the numbers below. We can also tailor our work to your needs so if you cannot see the area which interests you listed below, call us and we will do our best to meet your needs.
