

Have you grown out of your football kit?

Please donate it to KitAid, a charity that sends unwanted kit to villages across Africa, India and developing countries.

If your whole class brings more than 10 shirts with them, when you visit the Three Valleys Water Environment and Education Centre, we'll give your class a free football.

Please bring any kit that you'd like to donate along to your teacher before your visit and we'll ensure it brings a smile to the face of another child across the world. If you know anyone who runs a local football club, we'd really appreciate it if you passed on this information about KitAid.

Thank you for your support
